

REPUBLIC OF INDONESIA

List of Medium-Term
Planned External Loans
(DRPLN-JM)
2011-2014

- 1st Book -

**Ministry of National Development Planning/
National Development Planning Agency**

Foreword

In order to improve the efficiency and effectiveness of external loans utilization and to achieve the development goals as stipulated in the National Medium-Term Development Plan or *Rencana Pembangunan Jangka Menengah Nasional (RPJMN) 2010-2014*, the Government of Indonesia compose a List of Medium-Term Planned External Loans or *Daftar Rencana Pinjaman Luar Negeri Jangka Menengah (DRPLN-JM) 2011-2014*. The DRPLN-JM 2011-2014 is formulated based upon the Government Regulation Number 11/2011 on Procedure for the Procurement of External Loans and Grants, and the Ministerial Decree of National Development Planning/Head of National Development Planning Agency Number 4 year 2011 on Procedures of Planning, Proposing, Assessing, Monitoring and Evaluating of Projects Financed by External Loans and Grants.

DRPLN-JM 2011-2014 contains development project proposals to be financed through external loan. It consists of 132 project proposals that amount to USD 15.43 billion. Project proposals submitted by the Ministries/State Agencies, Local Governments, and State-Owned Enterprises have been through feasibility assessment for external loans. The proposed projects are prepared in line with the development goals of the National Medium-Term Development Plan or *Rencana Pembangunan Jangka Menengah Nasional (RPJMN) 2010-2014*.

Through the endorsement of DRPLN-JM 2011-2014, as stipulated in the Ministerial Decree of National Development Planning/Head of National Development Planning Agency Number KEP.94/M.PPN/HK/10/2010, the DRPLN-JM 2011-2014 is expected to be a guidance for ministries/state agencies, local governments, and State-Owned Enterprises in preparing approved projects for further process funded by External Loans and a reference for development partners in preparing their cooperation plans with the Government of Indonesia.

Minister for National Development Planning/
Head of National Development Planning Agency,

Armida S. Alisjahbana

Chapter 1

INTRODUCTION

1.1 Background

Substantial funding is needed in order to achieve national development goals and development priorities as stipulated in the National Medium-Term Development Plan or *Rencana Pembangunan Jangka Menengah Nasional* (RPJMN) 2010-2014 such as economic growth, improvement of community welfare, fulfillment of basic needs, and provision of infrastructure as well as realization of inclusive and sustainable development. The priority of funding sources comes from domestic sources, public, and private sector. However, due to the limitation of domestic funding, the government will also utilize external funding, among others, through External Loans or *Pinjaman Luar Negeri* (PLN).

The utilization of External Loans is merely in Development Cooperation Scheme by paying attention of mainstreaming of external loans: transfer of knowledge, investment leverage and international cooperation. By these consideration, the utilization of external loan will be directed to achieve national development programs as stipulated in RPJMN 2010-2014.

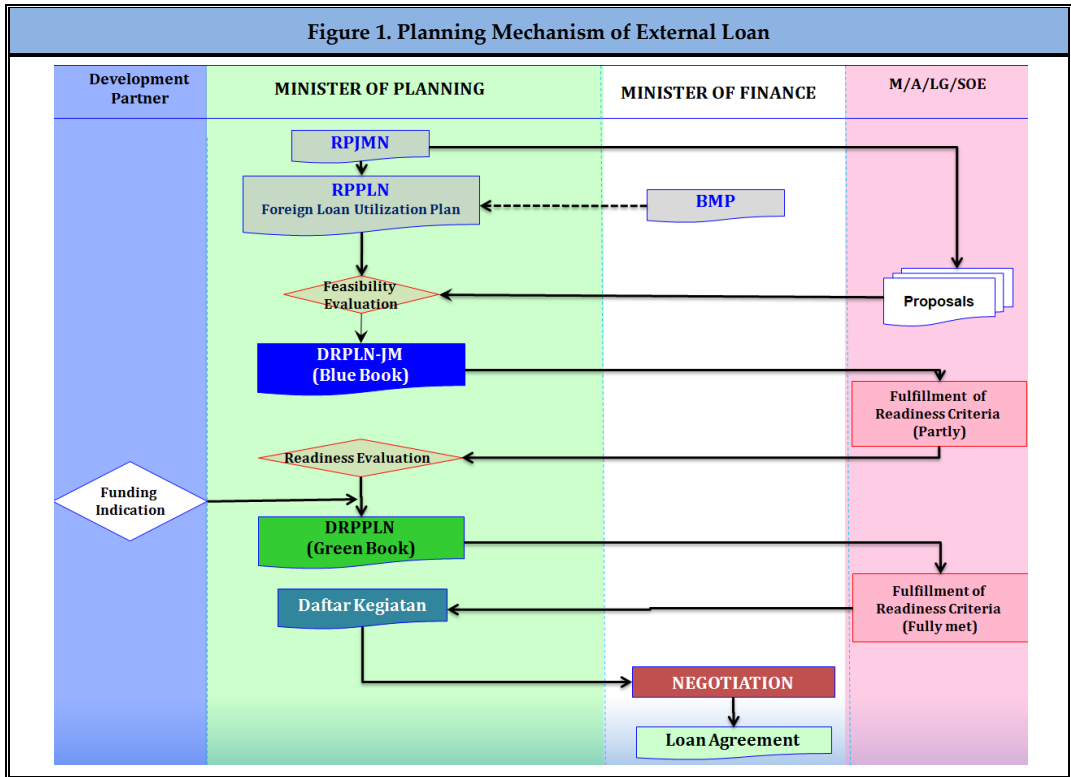

The utilization of PLN is done through planning mechanisms as stipulated in the Government Regulation Number 10/2011 on Procedure for the Provision of External Loans and Grants the Ministerial Regulation of National Development Planning/Head of National Development Planning Agency Number 4/2011 regarding Procedures of Planning, Proposing, Assessing, Monitoring and Evaluation of External Loans and Grants.

Referring to the regulations, utilization planning of external loans follows the mechanism as shown in Figure 1 below. External loans can be utilized to finance the development projects in the ministries/state agencies, local governments, and State-Owned Enterprises (SOEs), in accordance to RPJMN, and the direction of the external loan utilization as stipulated in *Rencana Pemanfaatan Pinjaman Luar Negeri* (RPPLN).

The minister, head of government agencies, head of the local governments, and President Director of SOEs should submit proposals to the Minister of National Development Planning/Head of National Development Planning Agency to utilize fund sourced from external loans. The proposals will then be evaluated for their feasibility in line with the development priorities as stated in the RPJMN and RPPLN.

Proposals that meet the qualification criteria will be included in the List of Medium-Term Planned External Loans or *Daftar Rencana Pinjaman Luar Negeri Jangka Menengah* (DRPLN-JM). Since DRPLN-JM is a Government of Indonesia formal document, it is expected that the development partners will refer their financing plans to the DRPLN-JM.

During the process of projects preparation, the Government of Indonesia undertake assessment on the readiness of the projects. The projects that have partially met the essential readiness criteria and have received funding indication from development partners will be listed in the Priority List of Planned External Loans or *Daftar Rencana Prioritas Pinjaman Luar Negeri* (DRPPLN). Projects that are fully met the readiness criteria will then be listed on Daftar Kegiatan. The projects that are considered ready for implementation will be submitted to the Minister of Finance for funding negotiation with the respected development partners.

1.2 Objectives

The objectives of DRPLN-JM 2011–2014 are as follows:

- a. As a guidance for ministries/state agencies, local governments, and State-Owned Enterprises in approved projects for further process funded by external loans;
- b. As a reference for development partners in preparing their cooperation plans with the Government of Indonesia.

1.3 Scope

The DRPLN-JM 2011-2014 covers project proposals of ministries/state agencies, local governments, and State-Owned Enterprises to be funded by external loans, either in the form of Project Assistanes (PA) or Technical Assistanes (TA) for the period of 2011-2014.

Chapter 2

POLICY AND PLAN FOR THE UTILIZATION OF EXTERNAL LOAN

2.1 Policy and Principle for the Utilization of External Loan

The policy on development funding as stated in the National Medium-Term Development Plan or RPJMN 2010-2014 is directed to ensure the availability of fund and to optimize the financing of national development towards self-reliance on development funding. In this regard, the main strategies of development funding are (i) optimization of sources and modalities of existing as well as future development funds; and (ii) quality improvement of development funding sources and modalities.

In accordance with the development funding policy of RPJMN 2010-2014, the external loan policy as mention in External Loan Utilization Plan (RPPLN) 2011-2014, as follows: (i) macro-policy that is aimed to maintain fiscal sustainability by reducing Debt to Gross Domestic Product (GDP) ratio at least 22 percent (preferably 20 percent) in balance budget 2014; (ii) utilization policy through focusing external loan project accordance with national priorities in RPJMN 2010-2014; (iii) management policy by improving portfolio and risk management; and (iv) institutional policy through strengthening of institutional capacity and improving the coordination mechanism at all stages.

Based on the Government Regulation Number 10/2011 and RPPLN 2011-2014, the external loan shall fulfill the following principles:

- considering state budget capability;
- transparent, effective and efficient, prudent and accountable;
- partnership and mutual cooperation;
- independent and not accompanied by political interest; and
- not have content that may disturb the state's stability and security.

2.2 Utilization Plan of External Loan

External loan is a development funding source from lender with repayment obligations, so that the utilization has economic consequences in the future. The utilization of external loan must be done carefully in order to achieve development priorities of RPJMN 2010-2014 in an effective and efficient manner. In this context, the utilization of external loan is mainly focus on infrastructure and energy priorities and requires the fulfillment of several criteria as follows:

1. Support pro-growth, pro-poor, pro-environment;
2. Having a wide range of benefit and innovative so that be a model for replication by domestic financing;
3. Increasing domestic goods and services utilization;
4. Receiving benefit from transfer of knowledge and technology;
5. Reduce development gaps among regions; and
6. Focusing to Line Ministries/Institutions (K/L), Local Government, State Owned Enterprises (SOE) that have proven track record in managing foreign loan.

Chapter 3

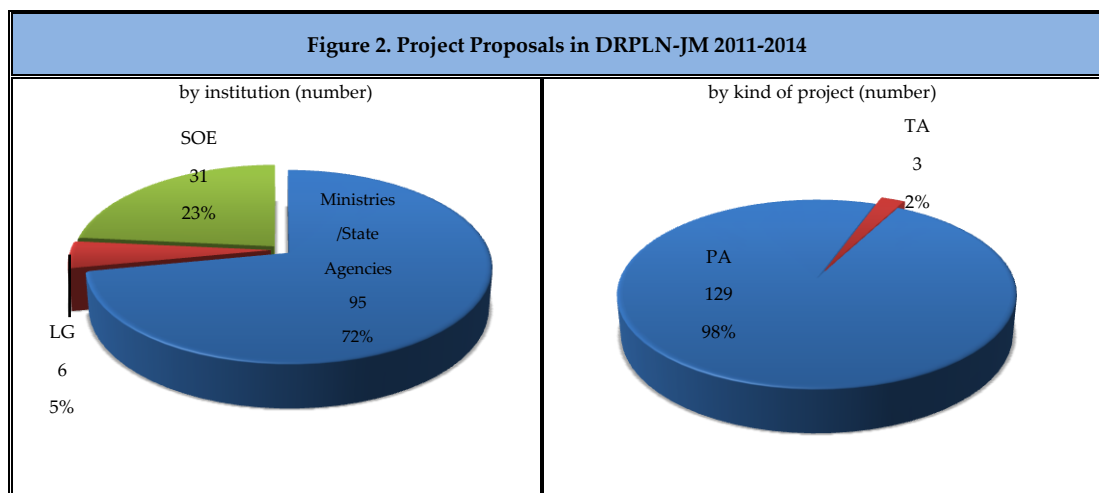

DRPLN-JM 2011– 2014

DRPLN-JM 2011-2014 consists of 132 project proposals, which are divided into 95 projects proposed by the ministries / state agencies, 6 projects proposed by local governments, and 31 projects proposed by the State-Owned Enterprises (see Table 1 and Figure 2). There are 2 (two) types of projects, namely Project Assistances (98%) and Technical Assistances (2%).

Table 1. Recapitulation of Proposals in DRPLN-JM 2011-2014 (in US million dollars)

11	Muara Tawar Add-on Block 2 Combined Cycle Power Plant (500 MW)	PA	400,000	60,000
12	Outside Java-Bali Enterprise Resource Planning (ERP)	PA	30,000	-
13	Pangkalan Susu Steam Coal Power Plant (SCPP) 2x200 MW	PA	383,000	68,000
14	Parit Baru Steam Power Plant (2x50 MW)	PA	133,000	23,000
15	Scattered Transmission Line and Substation in Indonesia	PA	525,000	30,000
16	Scattered Transmission Line and Substation in Indonesia - Phase II	PA	375,000	37,500
17	Strengthening West Kalimantan Power Grid	PA	99,000	11,000
18	Sungai Penuh 1&2 Geothermal Power Plant (2x55 MW)	PA	140,000	16,000
19	Takalar Steam Coal Power Plant (2x100 MW) in South Sulawesi	PA	250,000	44,100
20	Tulehu 1&2 Geothermal Power Plant (2x10 MW) <i>include USD 10.5 million of grant</i>	PA	75,500	7,000
21	Upper Cisokan Pumped Storage Hydro Electrical Power Plant (1,000 MW)	PA	774,000	73,000
22	Indramayu Steam Coal Power Plant 2x1,000 MW - Phase I: Engineering Services	TA	21,000	-

PT Semen Baturaja

1	Baturaja II Project	PA	100,000	80,000
